## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 31 March 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Abstract***

The abstract of the disclosure is objected to because legal phraseology such as "means" should not be present therein. Correction is required. See MPEP § 608.01(b).

### ***Specification***

The disclosure is objected to because of the following informalities: The specification is replete with minor grammatical and syntax errors that must be corrected, i.e., on page 4, line 8, after "10B.", "the" should be --The--, on page 4, line 9, "hallow" should be --hollow--, on page 4, line 14, after "body10.", "the" should be --The-- and on page 4, line 15, "10B" should be --10A--. The Applicant should review the entire specification and correct any other minor errors that may exist. Appropriate correction is required.

### ***Drawings***

The drawings are objected to because it appears that Fig. 1A should be labeled --Fig. 1-- and "Fig.1" should be labeled --Fig. 2-- (see lines 8-9 of page 3). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an

amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

Claim 1 is rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim is narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. The claim must be in one sentence form only. Note the format of the claims in the patents cited. The applicant is welcomed to contact the Examiner listed below should assistance be needed in the drafting of a properly formatted claim.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Pieters in view of Connelly et al. (hereinafter Connelly). Pieters discloses a combination toothbrush writing instrument comprised of a housing 12 and a writing instrument 20. Although the Pieters device does not include a toothpaste transmission system in the housing, attention is directed to the Connelly reference, which discloses another toothbrush where such a transmission system 14 is present in the body in order to conveniently supply a user with toothpaste. Accordingly, it would have been obvious to one of ordinary skill in the art at the time the invention was made to include such a transmission system into the body 12 of the Pieters device in order to enable a user to have convenient access to toothpaste.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Button and Broussard references are cited for disclosing other toothbrush/writing instrument combination devices.
